

You're in Roanne now after some papers problems, are you happy to let this behind and to think about the basketball ?

I'm just excited to be here honestly and ready to play. The visa process was extremely difficult. I'm happy everyone was patient in the process.

What do you think you can bring to this team ?

I think I bring different things. Basketball wise I think I can add to the rebounding column for sure. I always took pride in being a hustle player. I believe I can be an addition in multiple ways. In whatever the team needs me I'm there to do it.

Do you think you will be ready pour the first game of the season on saturday 17 ?

I believe I will be ready for the first game on the 17th. I know it will take time to learn the plays and adjust but hopefully with the help of my teammates the transition will be smooth.
